Siva Prajith

Flutter Developer

3+ Years of Experience

Seeking a position to leverage my extensive experience in the information technology industry, offering opportunities for professional growth while being resourceful, innovative, and adaptable. A role in Software Design/Development where I can continue to contribute and grow. Good team player, Quick- learner.

Experience

Mobile Developer

Apr 2024 – Dec 2024

Fidisys Technologies Private Limited

Creating efficient and responsive user interfaces for various client projects using Flutter. Collaborating with senior developers and testers, overseeing development processes, setting coding standards, implementing best practices, and evaluating project estimations and timelines.

Project : **HotKup**

Role : Mobile Developer

Hotkup is a next-generation end-to-end workspace management application featuring task management, dashboard visualisations, and collaboration tools. I developed cross-platform mobile and web applications using Flutter, ensuring seamless user experiences across devices.

Flutter Developer

Feb 2024-April 2024

Accenture(Quess Corp Payroll)

Developing responsive UIs for client and internal projects using Flutter, following clean architecture principles. Collaborated with the project manager, studied clean architecture for one month, and established coding standards while analysing project timelines and estimations.

Flutter Developer

March 2021-Feb 2024

Fidisys Technologies Private Limited

Designing responsive user interfaces for client and internal projects using Flutter, following stacked architecture principles. Setting coding standards, assessing project timelines, collaborating with developers and testers, training interns, and managing client projects.

Project : **Insite THCM**

Role : Flutter Developer

This app is used by the Insite users to track their fleet and get live updates about machine health, performance and location.

<https://play.google.com/store/search?q=insite%20thcm&c=apps>

Project : **WorksIQ Sync**

Role : Flutter Developer

App is used to validate the telematics device mounted on the assets/vehicles. This app helps to identify if there are any issues with the device and to check if the output is as per the standard.

<https://play.google.com/store/apps/details?id=com.trimble.upgraded.eol.sync>

Worked on 4+ other client projects in various areas like Fleet management, e-commerce.

Expertise

- ❖ Flutter development
- ❖ Mobile and Web UI/UX design
- ❖ Responsive Design
- ❖ Coding Standards and Best Practices.
- ❖ Expertise in Firebase Realtime Database and Firebase In-App Messaging and Push Notifications.

Tools

- **Flutter Development:** Building cross-platform mobile and web applications.
- **State Management:** Provider, GetX, Bloc
- **MVVM Architecture:** Implementing the Model-View-ViewModel pattern for scalable apps.
- **Clean Architecture:** Applying principles for scalable and maintainable code structures.
- **API Integration:** Handling RESTful and GraphQL APIs
- **Version Control:** Git and GitHub for source code management
- **Flavors:** Managing different build configurations and environments using Flutter flavors.
- **Deployment:** Deploying applications using Google Play Console.
