SUMMARY

I am an experienced full stack developer with proven ability to adapt into new environments and still produce work that meets quality standards. Worked in mobile, web and backend environments. Proficiency with the Flutter framework for creating Android and iOS applications. Also, I equipped myself in clean web development using ReactJS library. Strong ability to create API using Spring Boot and integrate them into the front end. Managed projects with sound knowledge in GIT for source control.

EXPERIENCE

CHANDVEL TECHNOLOGIES, Chennai — SOFTWARE DEVELOPER

JUN 2022 - PRESENT

- Delivered 15 update rollouts of live applications in play store.
- Contributed in successful deployment of a web application.
